BRAGG'S INDIAN QUEEN VEGETA-

The Great Popular medicine Of the day---Vast amount used per month --- The numerous and Wonderful Cures it effects--- Its Magical Effect upon Bilious Fevers, and Fever and Ague---Great Excitement among the Doctors!

THE INDIAN QUEEN VEGSTABLE SCOAR COATES PILLS BY valuable medicine in general use. It not only acts as a specific upon Bilious and Typhus Fevers, Chilis and Fever, and Fever and Ague of the west and south, but in all discusses of debility, weak stomach, indigestion, loss of appetite, impurity of the blood, and all discusses prevalent in a western and southern climate. Their great power consists in their reculiar effect upon all the organs of the system, and the rspid formation of new and rich blood, which they produce. In this lies the great secret of their success. They are mild and pleasant in their action, but searching and permanent in their effect; penetrating the remotest recesses of the system by their ready absorption into the blood, thereby infusing a new supply of vitality and nervous power into all the machinery of life. The extensive popularity they have acquired allower the west and south, ensures sales of at least

50,000 Boxes per Month, And we find it difficult, with our large force of hands, and the late improvements in machinery which we have adopted, to manufacture them fast enough to supply the demand in thirteen western and southern States! One large manufactory is commantly engaged in preparing the various concentrated extracts of which they are composed. From the best information we can obtain from our 8,000 selling agents, and hosts of attentive correspondents in all parts of the construction of the constr all parts of the country, our medicine cures, per month, not less than 10,000 cases of Fever and Ague, one thousand of which have resisted all other treatment;

do of various chronic diseases; do of weak stomach and loss of appetite

500 do of Scarlet Fever;
400 do of Typhus Fever;
300 do of Putrid Sore Throat.
This must appear almost incredible, but the numerous letters

the western and southern States, satisfy us that this is a moderate estimate, and that our medicine is rapidly taking the place of the various sugar-coated counterfeits which are affect, and the numer-ous tonic mixtures, made wholly of quinins, which are imposed upon the public by manufacturers who live, nobody knows where!

Dr. Bragg's famous Sugar Coated Indian Queen Vegetable Fills are of two kinds—the Cathartic and Tonic. The Tonic pills are peculiarly adapted to the quick and permanent cure of Fever and ague, torpor of the Liver, and general dehility. It is in Fever and Ague, Chill Fever, &c., that they achieve their greatest triumphs. It rarely requires over twelve hours; or more than half a box of the tonic pills, to break the chills and effect a permanent rure which is rarely the case with the tonic mixtures of quinine, hawked about the country by ignorant pretenders. Those who take the tonic pills will never forsake them.

Who can wonder, then, that a medicine of such extensive popularity, and extraordinary virtues should cause
